Description

2023 MAXXD Trailers A6X A6X8024

The Next Generation Of Car Trailer

Finally, an answer to the age-old dilemma of loading ultra-low sports cars and specialty vehicles. We took the concept of an air bagged car suspension system and applied it to a car hauling trailer. The result is an incredibly easy to use trailer that loads even the lowest of vehicles with ease: The MAXX-D DROP-N-LOAD car trailer.

The knife edge tail on a MAXX-D Drop-N-Load comes right down to ground level and gives the entire deck an industry-leading load angle. At the front of the trailer, we install a tall diamond-plated rock shield to protect your valuable cars from road debris. Base weights start at 3,300 pounds, and we offer the DROP-N-LOAD in 20' and 24' lengths.

While we designed the DROP-N-LOAD A6X with sleek styling and accents that highlight the lines of performance vehicles., this trailer isn't just for race cars. The low deck angle eliminates the need for ramps, making loading any car, truck, or SUV much safer and more convenient.

And while there is a definite component of the DROP-N-LOAD that is built for show, there's still plenty of "go" underneath the front-mounted toolbox. Dual Interstate batteries and rugged pneumatics mean the A6X DROP-N-LOAD will be working hard for years to come.

Like all MAXX-D Trailers, the A6X DROP-N-LOAD is finished with our industry-leading powder coating process. Six different steps all work together to give your flatbed trailer a premium powder-coated steel surface with unmatched durability and your choice of nine different colors.

Through our expansive dealer network, we give you the choice to configure your A6X DROP-N-LOAD trailer with a variety of options to fit your needs. Whether it's an in-floor toolbox, full-length E-track for tying down, or a Warrior winch, you can get an A6X DROP-N-LOAD trailer package that's perfect for your needs.

You'll ask yourself how you ever got along without the safety, convenience, and features provided by the A6X Drop-N-Load trailer. Do something great with a MAXX-D Drop-N-Load trailer!
